Short Narrative of CV

About the Lecturer:

She is a graduate of School of Dentistry at Centro Escolar University in Manila, Philippines. At the same school in 2010, she earned her Masters of Science in Dental Education. She attended various programs both local and abroad in Temporomandibular Joint Disorders and Orofacial Pain since 1990. She took the Masters of Science in Neuromuscular Orthodontics and Craniomandibular Orthopedics at the Universitat Jaume I, Spain in 2018-2020. She has a full time practice limited to Neuromuscular Orthodontics and Craniomandibular Orthopedics. She chaired the Continuing Professional Education and Speakers Bureau of the Philippine Dental Association and conducted over a hundred symposia and gave lectures around the Philippines and abroad. She gave so much devotion in the dental education wherein she established the Center for Cranio-TMJ Disorders Studies in 2002, aside from time to time teaching as post graduate adjunct professor in the universities.

A fulfilled dentist, an international lecturer, a mother of a dentist,
grandmother of 3 and a loving wife of a master mason.
