

TANYA DOYLE, BA, CDA, RDH

PROFILE

The healthcare industry is ever evolving, and the positive changes in the field of dentistry are allowing us to provide enhanced patient care. I feel very fortunate to be involved in dentistry. I truly enjoy what I do every day. My profession allows me to interact with all walks of life. Dentistry involves continued learning, education and encompasses both art and science. My daily practice is to provide and ensure optimal dental health and personal well-being.
