Long CV

Jason Pang, BDS, BSci (Hons, University Medal)

He completed his Bachelor of Science (BSc) degree (Biomedical Science) in 1994 from the University of Technology, Sydney (UTS) with the University Medal. He completed his Bachelor of Dental Surgery from the University of Sydney in 2002.

He maintains a private practice in Sydney, Australia where he has used multiple lasers since 2008. He is an educator and International speaker and speaks on topics such as ozone, Cone Beam Volumetric Tomography (CBVT), microscopes, lasers for dental and aesthetic treatments and phase-contrast microscopy for assessment of the oral microbiome.

Currently the Australian Master trainer for Fotona and Pioon lasers, he has completed two Masters in Laser Dentistry - one from the prestigious Laser & Health Academy (LA&HA) in Slovenia and another from the Università Cattolica del Sacro Cuore di Roma (UCSC).

He now teaches part of the program for the LA&HA, UCSC and European Masters in Oral Laser Applications (EMDOLA) Masters courses.

Dr Pang runs the Australian and New Zealand Study Club of the Academy of Laser Dentistry (ALD) and is a member of the Australian Medical Photobiomodulation Association (AMPA). His aim is to educate and encourage the use of lasers within clinical practices, educational institutions and public clinics.

He is a founding member of International Academy of Innovative Dentistry (IAID) which teaches courses on innovative equipment and techniques to improve the skills of dentists.

He is part owner of Laser Therapy Sydney that provides targeted and full-body healing using photobiomodulation with a range of World Association of photobiomodulation Therapy (WALT) recommended LED and laser devices.

Dr Pang is the author of the chapter “Innovative Dentistry” in the *Amazon Best-selling book* “**Game Changers: Entrepreneurs Leading Change**”. A book about a group of business owners that are disrupting their industries by doing things differently.
