EXECUTIVE SUMMARY

- **25 combined years of experience in the dental field working in cosmetic, restorative, DSO, periodontal, psychiatric hospital, and general practices as a dental assistant and hygienist.**
- **Speaker and Key Opinion Leader**
- **3 years as Director of Continuing Education.**
- **Public Relations Chair and member of AADH.**
- **Fellowship status with AAOSH**
- **Successfully integrated adjunctive therapies to assist in the improvement of patient health related to the oral-systemic connection for several offices.**
- **Volunteered to provide care for incarcerated and assisted living patients.**

EXPERIENCE

Director of Continuing Education, A Tale of Two Hygienists Podcast Jan 2019 to Present

Created over 200 Continuing Education courses in association with the CE Zoom platform covering an array of topics relating to the dental industry.

Public Health Hygienist, Central Regional Hospital October 2021 to May 2022

Provided dental care for psychiatric patients in a hospital setting as a public health hygienist organized by the Division of State-Operated Healthcare Facilities (DSOHF) within the North Carolina Health & Human Services.

Perio Protect Trainer Aug 2021 to June 2022

Provided numerous educational presentations weekly across the United States related to adjunctive therapies and the oral-systemic connection.

Research Assistant, Connect the Dents, LLC Sept 2020 to Dec 2021

Compiled, categorized, and organized dental related companies to display in a systematical format to include company name, their main product, other products of interest, the key executive, and contact information for further collaboration.

Periodontal Dental Hygienist for Van Scoyoc Periodontics & Implants February 2020 to March 2021

Provided periodontal care utilizing Perioscopy, salivary diagnostics, and additional adjunctive therapies to aid in an improved oral-systemic outcome.

Dental Hygienist, Carolina's Dentist (DSO). May 2016 to February 2020

Recognized as the top producing hygienist for three consecutive years by exceeding Key Performance Indicators. Developed insurance narratives for adjunctive therapies for all practices within the DSO to utilize based on their patient's needs. Introduced salivary diagnostics to educate and increase the quality of patient care. Collaborated with hygienists within the DSO practice to develop a dental hygiene manual. Monitored weekly dosimeter readings to assure safety regulations were upheld.
