

TeethCloud Launches Virtual Research Hub

We're immensely proud to announce the launch of our first **Virtual Global Research Hub**, created as a strategic initiative with the **Sisters of Mary of Banneux, Inc.** This realization of TeethCloud's vision will transform oral health outcomes for more than 5,000 children in the Philippines and beyond.

By harnessing the power of **dental informatics** and international collaboration, we're setting a new standard for community-driven solutions to one of the world's most overlooked public health challenges: oral health.

As our Board has rightly said, "Oral health is the gateway to overall well-being. With this hub, we're empowering populations, researchers, professionals, and stakeholders worldwide to share expertise and build a healthier tomorrow."

Founded in 1985, the Sisters of Mary of Banneux, Inc. continue their mission of education and empowerment for underprivileged children, providing holistic support that uplifts communities across the globe.

Will you be the next Virtual Global Research Hub? Join the movement! Be part of the change! Learn more at www.teethcloud.org/contact.
